Skills

Languages: C++, C, Java, TypeScript, JavaScript, SQL, Python

Backend: NodeJS, ExpressJS

Frontend: ReactJS, Tailwind CSS, HTML, CSS,

Databases: PostgreSQL, MySQL, MongoDB

Tools & Technologies: Docker, Git, GitHub, Linux, Postman, REST APIs

Work Experience

Digiardent Technologies Pvt. Ltd.

Sep 2021 - Dec 2022

Junior Programmer

- Developed and maintained **RESTful APIs** using **ExpressJS**, **NodeJS**, **MongoDB** and **JavaScript**.
- Managed **PostgreSQL databases**, optimized queries, and ensured reliable **data flow** across client applications.
- Conducted application and **API testing** to improve product stability and reduce deployment issues.
- Collaborated with **4+ cross-functional teams** to integrate **backend services** with frontend modules.

Education

Indian Institute of Technology, Bhilai

July 2024 - Present

Master of Technology in Computer Science and Engineering

CGPA: 8.62

- Teaching Assistant - Advanced Data Structures and Algorithms | **Course Instructor:** Dr. Vinod Reddy
- Core Member in Blockchain at IIT Bhilai (Blockchain Society)

Naraina Vidya Peeth Engineering and Management Institute, Kanpur

July 2017 - June 2021

Bachelor of Technology in Computer Science and Engineering

CGPA: 8.48

- Academic Excellence Award
- State Government Scholarship Recipient

Public Convent Inter College, Basti

June 2017

Intermediate

Percentage: 86.2 %

Public Convent Inter College, Basti

June 2015

High School

Percentage: 86.5 %

Project Work

• Coding Contest Platform

Tech: ReactJS, NodeJS, ExpressJS, MongoDB, Docker | **Code:** contestapp

- Building an online coding contest platform with features like **timed contests**, **problem statements**, **submissions**, **user profiles**, and **leaderboard rankings**.
- Implementing a **custom judge system** to compile/run code, evaluate test cases, and track **performance analytics**.

• Personal Finance Manager

Tech: ReactJS, NodeJS, ExpressJS, MongoDB, Chart.js | **Code:** personal-finance-webapp

- Developed a responsive **full-stack personal finance application** with **modular REST APIs**, **secure authentication**, and category-wise income/expense tracking.
- Built **interactive spending analytics** using **Chart.js**, enabling users to visualize trends and manage budgets effectively.

• Music Artist Collaboration Network Analysis

Guide: Dr. Rishi Ranjan Singh | **Tech:** Python, NetworkX, Pandas | **Code:** music-artist-collaboration

- Analyzed **large-scale music collaboration networks** to identify **influential**, **bridging**, and **isolated artists** using **centrality metrics** and **community detection**.
- Generated **visual insights** and **recommendations** to predict **potential collaborations** and support strategic artist discovery.

Awards & Certifications

- Cloud Computing Basics (Cloud 101) – Coursera
- Selected Topics in Algorithms – NPTEL (May 2025)
- Machine Learning – Coursera
- Crash Course on Python – Coursera
